

PRODUCT DATA SHEET

Product Name: ColourCoat Mug Product No.: 12155

Product description:

Durham style mug with intense pantone matched body colour that will not fade during the printing process, the inside of the mug remains white. The design has been inspected no less than 7 times to ensure you receive the best possible quality. Your design is screen overprinted.

Due to the specialist nature of the coatings, this mug is not dishwasher safe and should not be cleaned with harsh abrasives. We therefore suggest hand washing only with mild detergents in moderate temperatures to keep the mugs looking good. Although the mug is microwave oven safe, prolonged heating may damage the surface.

Min. order qty:	250
Decorated in:	UK

All information correct at time of production. Whilst we endeavour to maintain the accuracy of this document, details may change without notice.

PRODUCT DATA SHEET

Product Name: ColourCoat Mug

Product No.: 12155

Artwork template:

We can accept artwork by disk, email or you can upload onto our FTP site. Please contact us for details.

Programs: (all versions accepted)

Mac: QuarkXpress, Illustrator, PhotoShop, and Freehand.

PC: CorelDraw, PhotoShop and Adobe InDesign

Please supply us with:

Finished version of the artwork.

All of the source files used to create the finished version, including all high resolution scans, all screen and printer fonts Label the disk with job title and return address.

All artwork supplied must be fully editable. The finished version should be supplied as a CYMK file (plus spot colour separations.)

Please note text must be no smaller than 8pt and reversed out text should preferably be larger and in bold. Emailed artwork must be clearly labelled with your order number and company name in the reference line, or supplied on CD with the same information clearly marked. 4 colour process artwork needs to be 300dpi or higher.

Supply a print out: Black and white or from a low-cost colour printer using the right file, not an earlier version. Label with PMS references for all corporate colours or other critical colour matches. Supply colour samples or swatches at the outset. Customer supplied printouts cannot be matched because there is no consistency of calibration between their machine and our press.

For Screen Printed designs please supply the following:

Editable EPS file

Image saved at 100% size or larger

Pantone® references supplied for colours

Fonts supplied or text saved as curves

Dye sublimation printed designs need a 2mm bleed and live matter must be 10mm from the edge of the mug, to ensure a crisp print quality.

Due to nature of this product. Tight registration may be difficult - registration may move by up to 3mm on screen print. If you would like further information regarding a specific design, please feel free to contact us.
